F - Lit bébé 140x70

Livré démonté : 4 colis
À monter soi-même

GB - Cot 140x70

Knocked down : 4 parcels
Self assembly

D - Kinderbett 140x70

Zerlegt geliefert : 4 kollis
Selbst zu montieren

SP - Cuna 140x70

Entregado desmontado : 4 bultos
Para montar su mismo

P - Cama 140x70

Entregue desmontado : 4 embrulhos
Para montar você mesmo

NL - Ledikant 140x70

Ongemonteerd geleverd : 4 pakketten
Zelf te monteren

I - Lettino 140x70

Consegnato non montato : 4 colli
Assemblaggio fai da te

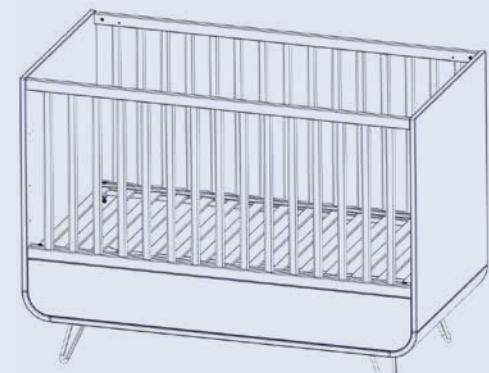

PL - Łóżeczko dziecięce 140x70

Dostarczane zdemontowane : 4 paczki
Do samodzielnego montażu

IMPORTANT - A CONSERVER POUR ULTERIEURE CONSULTATION

Respecter les instructions de montage et les conseils d'utilisation suivants :

Avertissements

Attention au danger de placer le lit à proximité de flammes nues et d'autres sources de forte chaleur, comme les appareils de chauffage électrique, les appareils de chauffage à gaz, etc. Ne placez pas le lit à proximité d'une fenêtre ou d'autres meubles.
Ne pas utiliser le lit si certains éléments sont cassés, endommagés ou manquants, et n'utilisez que des pièces détachées approuvées par le fabricant.
Ne rien laisser dans le lit et ne pas le placer à côté d'un produit qui pourrait fournir une prise pour les pieds de l'enfant ou présenter un danger d'étouffement ou d'étranglement, par exemple des ficelles, des cordons de rideaux, etc.
Ne pas utiliser plus d'un matelas dans le lit.

Recommendations

Le lit ne peut être prêt à l'emploi qu'une fois les mécanismes de verrouillage pleinement enclenchés. Cet enclenchement est à vérifier avant d'utiliser le lit.
Dès que votre enfant est en âge de s'asseoir, régler le sommier dans la position la plus basse, cette position étant la plus sûre.
Ce lit est prévu pour être équipé d'un matelas 140 x 70 cm. L'épaisseur du matelas doit être telle que la hauteur intérieure (c'est-à-dire la distance entre la surface du matelas et la partie supérieure du cadre du lit) soit d'au moins 500 mm dans la position la plus basse du sommier et d'au moins 200 mm dans sa position la plus haute. Un marquage dans votre lit vous indique l'épaisseur maximale du matelas à utiliser lorsque votre sommier est en position haut.
Les meubles à monter doivent être assemblés par un adulte et jamais par un enfant car certaines pièces présentent un risque d'étouffement. Un seul particulier doit être apporté sur les dispositifs d'assemblage qui doivent toujours être convenablement serrés, régulièrement contrôlés et reserrés si nécessaire.

Conseils d'entretien : Dépoussiérage chiffon sec ; ni alcool, ni solvant. Taches rebelles : éponge légèrement humide.
Pour tout déplacement, les meubles doivent être impérativement soulevés et non poussés ou tirés.

Attention : Lorsque votre enfant est capable de sortir seul du lit, le lit ne doit plus être utilisé pour cet enfant.

WICHTIG – ANLEITUNG ZU SPÄTERE ANWENDUNG AUFBEWAHREN

Halten Sie bitte die folgenden Aufbauanleitungen und die Verwendungsratschäge ein:

Warnungen

Um Brandgefahr zu vermeiden, soll das Bett neben offene Flammen und andere starken Wärmequellen wie Elektro- oder Gasheizungsgeräten usw... nicht stehen. Stellen Sie das Bett nicht in die Nähe eines Fensters oder eines anderen Möbelstücks. Das Bett, wenn einige Teile gebrochen, beschädigt oder fehlend sind, nicht benutzen.
Benutzen Sie nur Ersatzteile, die vom Lieferant vorgegeben sind.
Lassen Sie nichts im Bett und stellen Sie es nicht neben einem Gegenstand, worauf das Kind klettern könnte oder, der eine Erstickungsgefahr – z.B. Schnüre, Zugschnüre usw... – darstellen könnte.
Benutzen Sie nicht mehr als eine Matratze im Bett.

Empfehlungen

Das Bett ist erst einsatzbereit, wenn die Verriegelungsmechanismen voll eingerastet sind. Dieses Einrasten soll vor Benutzung des Bettes geprüft werden.
Sobald Ihr Kind sich selbst hinsetzen kann, stellen Sie den Lattenrost in die unterste Position, da diese Position die sicherste ist.
Dieses Bett ist mit einer Matratze 140 x 70 zu verwenden. Die Stärke der Matratze soll so sein, dass die innere Höhe, d.h. der Abstand zwischen die Oberfläche der Matratze und das obere Teil des Bettrahmens, von mindestens 500 mm, wenn das Lattenrost in der unteren Position steht, und von mindestens 200 mm, wenn das Lattenrost in der höheren Position steht, ist. Eine Markierung in Ihrem Bett zeigt Ihnen die maximale Höhe der Matratze zu benutzen, wenn Ihr Lattenrost in der oberen Position steht.
Die einzelnen Möbelelemente sollen von einem Erwachsenen montiert werden und nie von einem Kind, da einige Teile eine Erstickungsgefahr darstellen.

Prüfen Sie regelmäßig, daß die Befestigungsschrauben festgezogen sind und ziehen Sie diese wieder an wenn notwendig.
Trocknen Lappen abwischen : Weder Alkohol noch Lösungsmittel.
Zurückbleibenden Flecken : feuchter Schwamm.
Für jede eventuelle Platzänderung muß das Möbel unbedingt gehoben werden.
Achtung : Wenn Ihr Kind allein aus dem Bett krabben kann, soll das Bett für dieses Kind nicht mehr benutzt werden.

GB

IMPORTANT TO RETAIN FOR FUTURE CONSULTING

Be aware and respect the assembling
instructions and the following uses advice

Disclaimers

To avoid any risk of fire, don't place the cot near open flames and other sources of high warmth supply as electric or gas heating, etc. Do not place the bed near a window or near other items of furniture.
Don't use the cot if there are broken, damaged or missing parts, and use only spare parts approved by the manufacturer.
Don't leave anything in the cot and don't place it next to a product that could provide a hold for the feet of the child or be a danger of suffocation or strangulation, such as strings, cords, curtains, etc...
Don't use more as a mattress in the cot.

Recommendations

The cot is ready to use only after the locking mechanisms have been fully engaged.
As soon as your child is old enough to sit down, set the bed base in the lowest position, this position is the safest.
This cot is expected to be equipped with a mattress 140 x 70 cm. The thickness of the mattress must be such that the internal height, i.e. the cot, is at least 500 mm in the lowest position of the bed base and at least 200 mm in its highest position.
Furniture must be assembled by an adult due to suffocation risk.
Care must be provided on the clamping screw assembly which must be regularly checked and tightened if necessary.
Dust with dry cloth : no alcohol nor solvents. Hard to remove stains : slightly damp sponge.
The furniture must always be lifted when moving it.
Be careful: If your child is able to leave alone the cot bed, the bed should no longer be used for this child.

IMPORTANTE – GUARDAR PARA FUTURAS CONSULTAS

Respeitar as seguintes instruções de montagem e
conselhos de utilização:

Precauções

Para evitar riscos de incêndio, não coloque a cama próxima de chamas nuas e de outras fontes de calor intenso, como aparelhos de aquecimento eléctrico, aparelhos de aquecimento a gás, etc. Não coloque a cama na proximidade de uma janela ou de outros móveis. Não utilize a cama se tiver determinados elementos partidos, arranados ou em falta, e utilize apenas peças sobresselentes aprovadas pelo fabricante.

Não deixe nada na cama e não a coloque junto de algum produto que possa prender os pés da criança ou representar perigo de asfixia ou estrangulamento, por exemplo cordas, cordões de cortinados, etc.

Recomendações

A cama só estará pronta a usar após ter todos os mecanismos de fecho totalmente unidos. Essa união deverá ser verificada antes de utilizar a cama.

A partir da altura em que o seu filho tiver idade para se sentar, regule a cama para a posição mais baixa, pois esta é a posição mais segura. Esta cama está preparada para ser equipada com um colchão de 140 x 70. A grossura do colchão deve ser tal que a altura interior, ou seja a distância entre a superfície do colchão e a parte superior do estrado da cama, deverá estar pelo menos 500 mm na posição mais baixa e pelo menos 200 mm na posição mais alta. A sua cama tem uma marca que lhe indica a grossura máxima do colchão a utilizar quando a cama estiver na posição alta.

Os móveis a montar devem ser montados por um adulto e nunca por uma criança pois algumas peças apresentam risco de asfixia. Deverá ter especial cuidado com a fixação dos parafusos de montagem que devem ser controlados e apertados regularmente, se necessário. Tirar o pó com pano seco ;nem álcool, nem solvente. Manchas rebeldes :esponja leigamente húmida.

Para deslocar o móvel é imperativo levantá-lo.

Atenção: Quando o seu filho for capaz de sair sozinho da cama, este deverá deixar de a utilizar.

IMPORTANTE – CONSERVARE PER EVENTUALI FUTURI UTILIZZI

Rispettare le istruzioni del montaggio e i
consigli di utilizzazione seguenti :

Avvertenze

Per evitare qualsiasi rischio d'incendio, non posizionare il letto in prossimità di fiamme vive o altre fonti di calore intenso, ad es apparecchiature elettriche, apparecchiature di riscaldamento a gas, ecc. Non posizionare il letto in prossimità di una finestra o altri mobili.

Non utilizzare il letto qualora presenti parti rotte, danneggiate o mancanti e utilizzare solamente parti di ricambio approvate dal produttore. Evitare di lasciare qualsiasi oggetto nel letto e non posizionarlo di lato a un prodotto che possa fungere da appoggio per i piedi del bambino o presentare rischi di soffocamento o strangolamento, ad es. cordicelle, corde delle tende, ecc.

Utilizzare un solo materasso nel letto.

Raccomandazioni

Utilizzare il letto solamente dopo aver inserito i meccanismi di bloccaggio e verificare tali blocaggi prima di utilizzare il letto. Non appena il bambino è in grado di sedersi, regolare la rete nella posizione inferiore che corrisponde a quella più sicura.

Il letto prevede l'utilizzo di un materasso 140 x 70. Lo spessore del materasso deve essere tale per cui l'altezza interna, cioè la distanza tra la superficie del materasso e la parte superiore del telaio del letto, sia pari ad almeno 500 mm nella posizione più bassa della rete e ad almeno 200 mm nella posizione più alta. Sul letto è riportata un'indicazione che si riferisce allo spessore massimo del materasso da utilizzare quando la rete è in posizione elevata.

I mobili da montare devono essere assemblati da un adulto e mai da un bambino, poiché includono parti che potrebbero implicare il rischio di soffocamento.

Prestare particolare attenzione al serraggio delle viti d'assemblaggio che devono essere controllate a cadenza regolare e riavviate, secondo necessità.

Spolveratura con straccio asciutto : né alcol, né solventi. Macchie ribelli :spugna leggermente umida

Per muovere il mobile, è imperativo sollevarlo. Attenzione: non utilizzare più questo tipo di letto non appena il bambino è in grado di uscirne da solo.

BELANGRIJK - BEWAREN OM LATER TE KUNNEN RAADPLEGEN

Gelieve de montage instructies en de
volgende verbruiksadviesen te volgen :

Waarschuwingen

Om brandgevaar te vermijden het bed niet in de buurt van open vuur en andere warmtebronnen plaatsen, zoals elektrische verwarmingen, gaskachels, enz. Het bed niet in de buurt van een raam of van andere meubels plaatsen.
Het bed niet gebruiken als er onderdelen kapot of beschadigd zijn of missen en alleen onderdelen gebruiken die zijn goedgekeurd door de fabrikant.
Geen voorwerpen in het bed achterlaten en het niet plaatsen naast een product dat als opstapje kan dienen voor kinderen of dat verstikkingsgevaar kan opleveren, zoals touwtjes, gordijnkoorden enz.
Niet meer dan één matras in het bed gebruiken.

Anbevelingen

Het bed is pas klaar voor gebruik als de vergrendelmechanismen volledig gesloten zijn. Dit moet worden gecontroleerd voordat het bed gebruikt wordt. Vanaf het moment dat uw kind kan zitten, de bodem in de laagste positie plaatsen, omdat dit het meest veilig is.
Dit bed is geschikt voor een matras van 140 x 70 cm. De dikte van het matras moet zo zijn dat de binnehoopte, dat wil zeggen de afstand van de bovenkant van het matras tot aan de bovenrand van het bedje, minimaal 500 mm bedraagt in de laagste stand van de bodem en minimaal 200 mm in de hoogste stand. Een merkteken in het bedje geeft de maximale dikte van het matras aan als de bodem in de hoge positie staat.
De zelfbouwmeubels moeten altijd gemonteerd worden door een volwassene en nooit door een kind, omdat bepaalde onderdelen verstikkingsgevaar kunnen opleveren.
Er moet extra gelief worden op het goed vastzitten van de schroeven. Deze moeten regelmatig worden gecontroleerd en indien nodig opnieuw worden vastgedraaid.

Afstoffen met een droge stoofdoek : ijen alkohol noch solventen. Hardnekke vlekk : met een lichtvochtige doek.
Voor elke eventuele verplaatsing moet het meubel worden opgetild.
Let op: Als uw kind het bed kan klimmen, mag u dit bed niet meer gebruiken voor dit kind.

WAŻNE – ZACHOWAĆ DO PRZYSZŁYCH KONTROLI.

Proszę przestrzegać instrukcji montażu oraz
następujących zaleceń dotyczących użytkowania

Ostrzeżenia

Aby uniknąć ryzyka pożaru, nie należy umieszczać łóżeczka w pobliżu otwartego ogniwa oraz innych źródeł wysokiej temperatury takich jak grzałki elektryczne, grzejniki gazowe itp. Nie umieszczać łóżeczka w pobliżu okna ani innego mebla.
Nie należy używać łóżeczka jeśli któryś z elementów jest uszkodzony. Należy stosować częście zamiennie wyłącznie zakceptowane przez producenta. Nie należy pozostawiać niczego w łóżeczu, a także w jego pobliżu, co może postużyć jako podparcie dla stopy dziecka lub też stanowić zagrożenie uduszenia się dziecka lub zadławienia przy pomocy sznurów do zastolenia itp.
Nie należy stosować więcej niż jeden materac w łóżeczu.

Łóżeczek nie jest gotowe do użytkowania, jeśli mechanizm zamkajający nie jest w pełni sprawny. Mechanizm należy sprawdzić przed korzystaniem z łóżecza.
Kiedy dziecko jest na tyle dorosłe by stać się należycie ustawić materac na najniższej pozycji – pozycji ta jest najbezpieczniejszą.
To łóżko powinno być wyposażone w materac o wymiarach 140 x 70. Grubość materaca musi być taka, abyewnętrzna wysokość pomiędzy powierzchnią materaca a górną częścią łóżka była większa niż 500 mm w pozycji najniższej materaca i co najmniej 200 mm w najwyższej pozycji. Oznaczenie na łóżeczu wskazuje maksymalną grubość materaca gdy ten znajduje się w pozycji górnej.
Meble w elementach powinny być montowane przez dorosłych i nigdy przez dziecko, ponieważ niektóre z części stanowią zagrożenie uduszenia.

Szczególną uwagę należy poświęcić dokręceniu śrub mocujących, które powinny być kontrolowane i dokręcone w razie potrzeby.
Odkrążać używając suchego szmatki, bez alkoholu, bez rozpuszczalnika. Silniejsze zabrudzenia usuwać za pomocą lekko wilgotnej gąbki.
W czasie każdego przymieszczania, mebel powinien być bezwzględnie podnoszony, a nie ciągnięty lub pchaną. Uwaga : gdy dziecko jest w stanie wyjść samodzielnie z łóżeczka, produkt ten nie powinien być już używany.

4 positions de sommier
4 positions of bed base
4 lattenrost-positionen
4 posiciones de somier

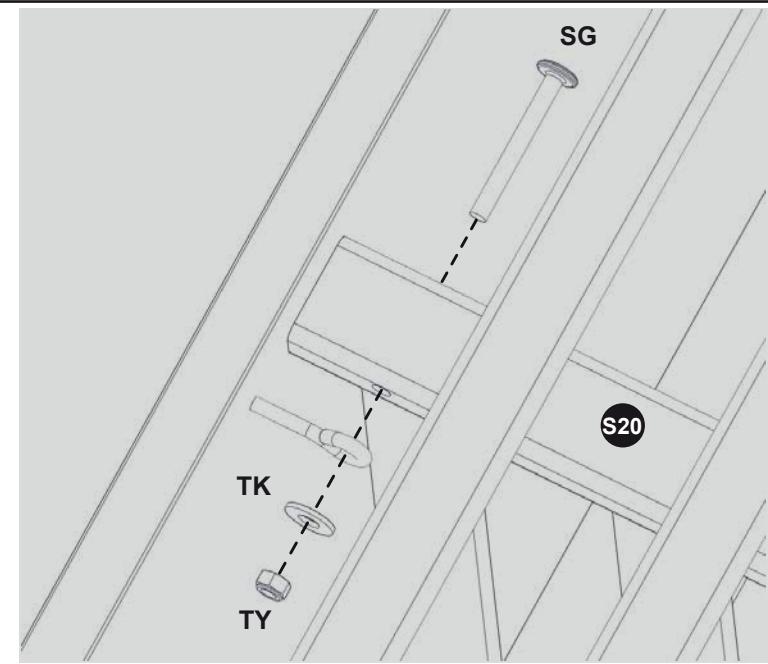

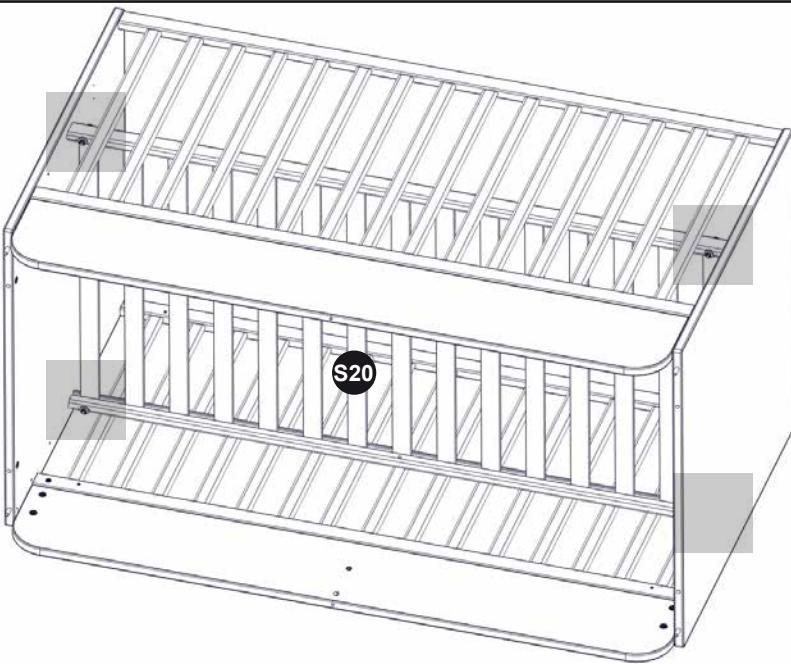

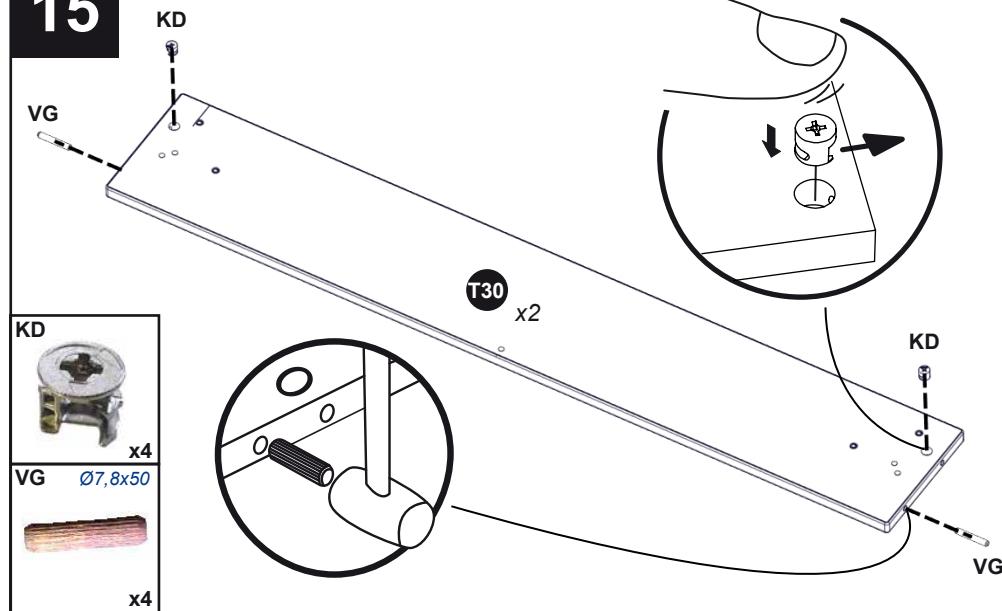

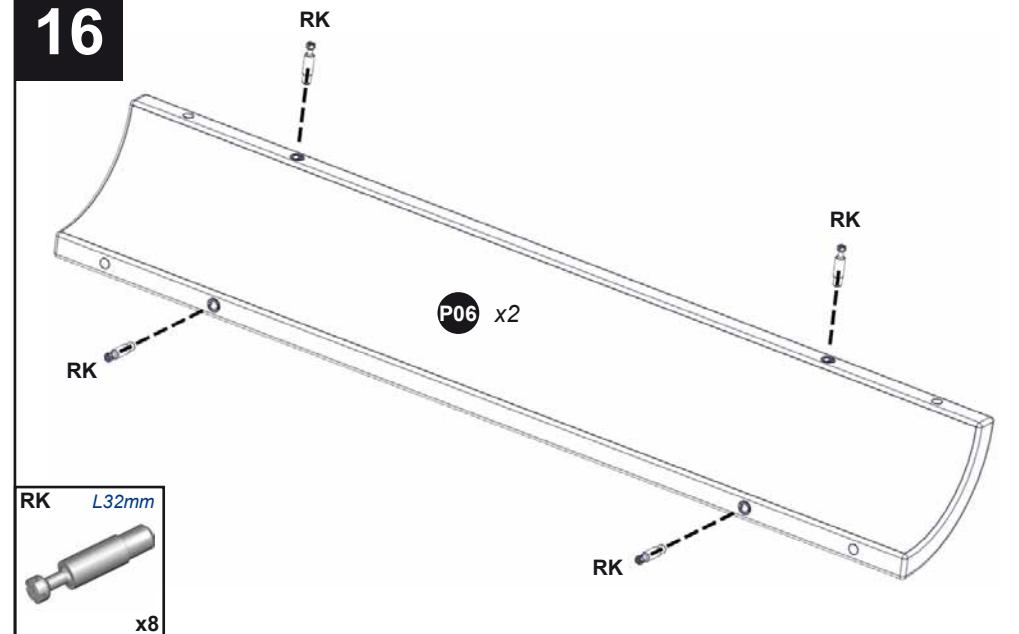

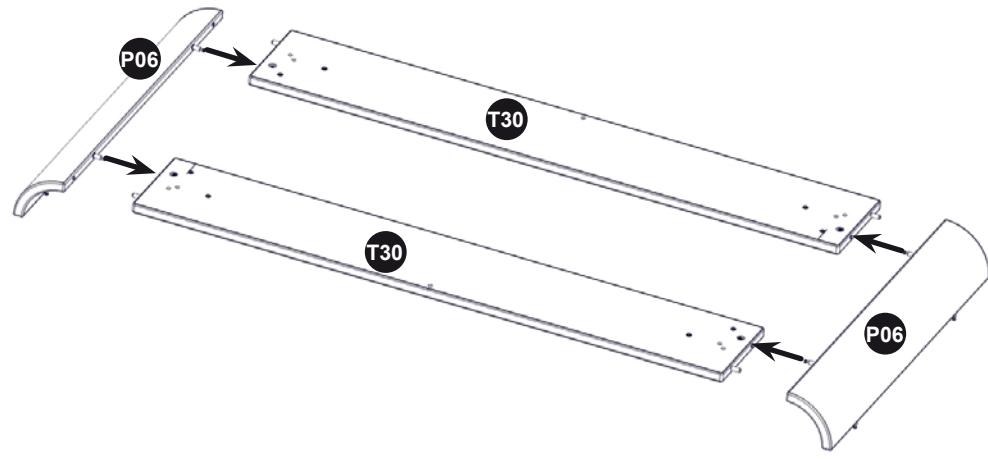

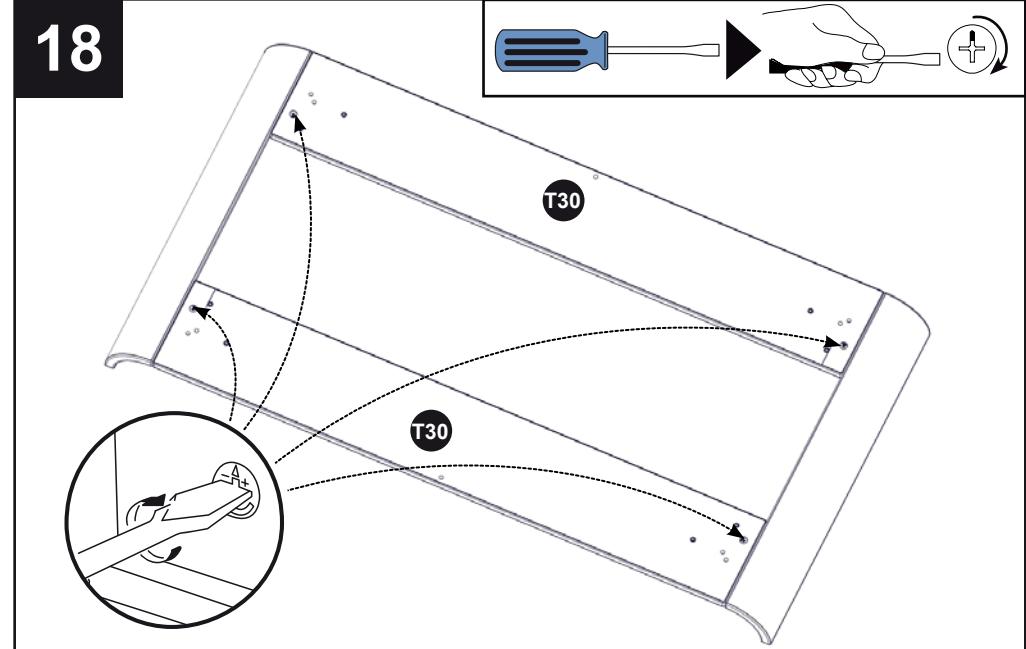

Dès que votre enfant est en âge de s'asseoir, régler le sommier sur les positions les plus basses, ces positions étant les plus sûres.

As soon as your child is old enough to sit down, set the bed base in the lowest position, this positions are the safest.

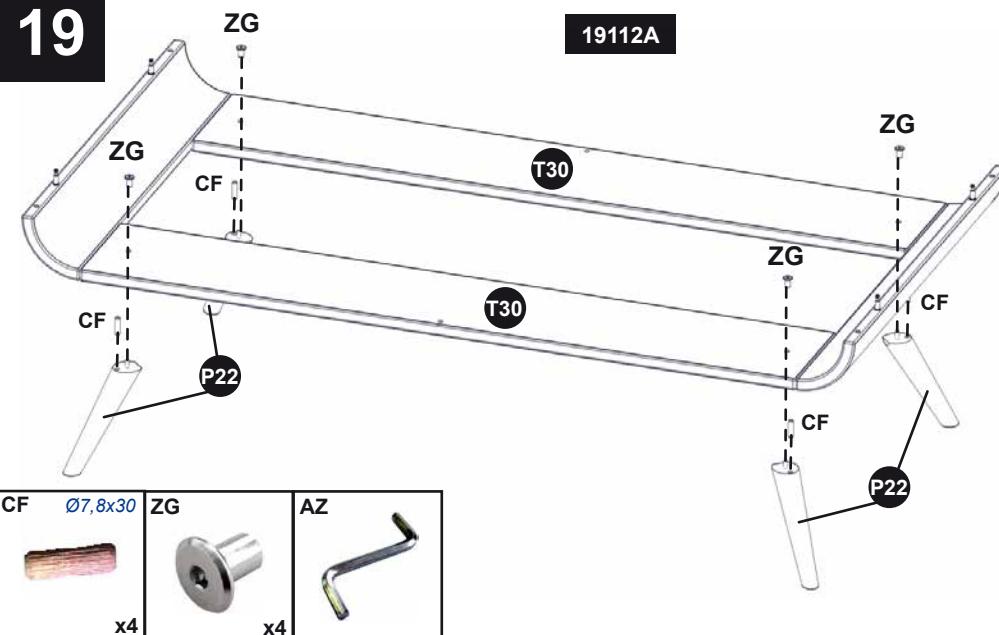

Sobald Ihr Kind sich selbst hinsetzen kann, stellen Sie den Lattenrost in die unterste Position, da diese Position die sicherste ist.

Tan pronto como bebe pueda sentarse sólo, poner el somier en la posición más baja, ya que es la posición más segura.
